

# She's the One

## Saint Etienne

She  
She's the one  
She  
She's the one She's the girl who thinks nothing of  
Breaking up two people in love In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs She  
She's the one  
She  
She's the one Saw her again last night  
I saw her with another guy In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs She  
She's the one  
She  
She's the one In this world of ups and downs  
She's the one In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs He kissed me  
He kissed me  
He hit me  
And it felt like a kiss In this world of ups and downs  
In this world of ups and downs  
In this world of ups and downs
