# When You're Ready

## The Roches

When you're ready
You will find it impossible to be coolIf you're ready
There's no need to be worried about coming off like a foolSo long Eddy
It's been beautiful knowin' ya in this school, are ya ready?Come up to heaven, happiness it is a given
You gotta see this, atmosphere it is the freest
There's nothing to stop youWhen you're ready
You'll be over the rainbow and on the moon, you'll be prettyWhen you're ready
You will find it impossible to be cool
