

Calypso

Van She

When the lights go on and the people walk in
I feel there is people flying at your head
There's a list going on that will never be complete
So you're better off being dead I feel the pain on your expression
I feel the rest coming out in your stride
I feel the heat coming down from the people above
I feel there's nothing left to do but dance I feel Calypso
I feel Calypso

When you walk out at five, you feel the break in your stride
You got the beat coming over your head
Music is the scene and now you know it keeps repeating
Let the beat come trippin' instead I feel the pain on your expression
I feel the rest coming out in your stride
I feel the heat coming down from the people above
I feel there's nothing left to do but dance I feel Calypso
I feel Calypso
I feel Calypso
I feel Calypso

I feel Calypso I'll let go of this overture
I will be in love with you
Leave with me, this city forever
I never wanna let you down
I feel Calypso
I feel Calypso
I feel Calypso
I feel Calypso
