

# In My Arms

## Dead by April

Don't look down, don't look back  
I am beside you, close your eyes, know I'm here  
I know it's hard to let go all that defines you  
You feel like you'll never be whole again We will find a way to erase the past  
Stay with me, stay with me In my arms you'll be fine, I'll never let go  
All you've lost will come again, just stay here with me  
Never look back, never again, it's over  
Everything ends here in my arms Don't give in, don't let your memories break you  
Let me take you away from here We will find a way to make this last  
Stay with me, stay with me In my arms you'll be fine, I'll never let go  
All you've lost will come again, just stay here with me  
Never look back, never again, it's over  
Everything ends here in my arms I'll be here forever, everything ends  
Here in my arms, I'll be here forever  
Everything ends here in my arms  
I'll be here forever, forever, forever In my arms you'll be fine, I'll never let go  
All you've lost will come again, just stay here with me  
Never look back, never again, it's over  
Everything ends here in my arms
