# Ill Be There

## Julie Anne San Jose

First time I laid my eyes on someone like you
I can't forget the hour, that moment with you
Then I have realized, love is growing deep inside
I feel the beating of my heartChorus:
Cause every day, every night,
I keep looking at the skies
And I'll pray that someday
You will wake up in my arms
And love will never end
We belong together, always and forever
Call my name and I'll be there.Spending my days and nights
Just thinking of you (thinking of you)
How you make me wanna smile
With the things that you do (the things that you do)
When will I hear you say (you say),
Love is coming on your way
And that you start to feel the sameChorus:
Cause every day, every night,
I keep looking at the skies
And I'll pray that someday
You will wake up in my arms
And love will never end
We belong together, always and forever
Call my name and I'll be there.Cause every day, every night,
I keep looking at the skies
And I'll pray that someday
Uou will wake up in my arms
Cause every day, every night, I keep looking at the skies
And I'll pray that someday you will wake up in my arms
And love will never endWe belong together, always and forever
Call my name and I'll be there
