

Handle Your Business

Js

I really enjoy ya
Just hangin' out doing things
I got a lot of love for ya
No games ain't nothing changed
Now why ya wanna call my cell
Talkin' 'bout love me or leave me alone
Girl, you knew from the gheto
So whatcha leave this message for
It's been a while and this ain't my style
If it's gonna be, then let me know
If not then, let me go right now
If you want my love, baby, handle your business
If it's not about us, there's no sense in chillin', chillin'
If I'm what you want
Let's start billin'
'Cuz whenever your around, I get this feeling, feeling
Baby, you must not know what love means
'Cuz if you did, you wouldn't do these things
Love ain't always getting in my jeans
But that's all you wanna do, it seems
What about deep conversation?
Sharing secrets, being there for one another
When the other needs it, you say you love me and I don't believe it
That's why I have to call and say
It's been a while and this ain't my style
If it's gonna be, then let me know
If not then, let me go right now
If you want my love, baby, handle your business
If it's not about us, there's no sense in chillin', chillin'
If I'm what you want
Let's start billin'
'Cuz whenever your around, I get this feeling, feeling
Ronald, make up your mind
Oh Candy, say can I take my time, baby
C'mon boy you're wasting time
Girl, I want you in my life, baby
Right now boy you gotta choose
Ooh you got me so confused
I love you

I love you too, girl
If that's true, you know what you gonna do
If you want my love, baby, handle your business
If it's not about us, there's no sense in chillin', chillin'
If I'm what you want
Let's start billin'
'Cuz whenever your around, I get this feeling, feeling
If you want my love, baby, handle your business
If it's not about us, there's no sense in chillin', chillin'
If I'm what you want
Let's start billin'
'Cuz whenever your around, I get this feeling, feeling
Love you, baby, you know I love you, baby
And you know I love you
You drive me crazy
You drive me crazy
