

# Back to Back

## Clint Black

(Clint Black/Hayden Nichols) Behind every good man stands a good woman  
Though they might be looking a different way  
While she's dealin' with one thing  
I've got another thing comin'  
If I'm lookin' at tomorrow, she'll be thinkin' 'bout yesterday  
Back to back, we face each other  
Still together all alone  
We'd be the last to turn to one another  
But I know we'll make it together on our own  
Nobody could ever come between us  
Or force our backs against the wall  
Today we're tighter than I've ever seen us  
Bending over backwards together, we could never fall
