

# Grave Architecture

## Pavement

Come on in...  
Grave architecture (x2)  
Walk the marble malls [ ? ]  
The monuments to those who fall  
And it's a pocket less than narco shell-bit  
Stiff the crypt and the others are rough  
And the hood's so rad  
And I'm fucking glad  
Glad to see that, know what it means  
It takes a lot Grave architecture (x2)  
Stroll past the strip  
Is it old? am I clipped?  
Am I just a bathtub waiting to be gripped  
Or found on shady ground?  
And the lampshade's poised on the overwhelm  
Drugs, and need the talent to breathe  
It takes a lot Oh yeah, you wanna be like a blind fish  
Positive, we're positive-- go!  
Takes a lock-grip, baby  
To put you to war  
And I'm pushin' you back than ever ? ? ?  
That'll push you hard  
It takes em.....
