

# MoonChaser

## Nekromantix

Slowly creeping through the dark  
Another victims blood  
Is on your hands  
Murder echo's in the path  
You show no mercy  
Never give the weak a change  
Crossing sunset  
The night is over soon  
Maybe a piece of luna  
Will stop the urge to kill  
The avenue of stars  
Won't lead the way to the moon  
But only to the sign of promises  
Up there on the hill  
Watch the moon  
See how it mirrors  
in the silver lake  
Don't let the beauty fool you  
Evil lurks make no mistake Moonchaser ghetto birds  
Are flying by  
See angels weep hear them cry  
Moonchaser you can run  
But you can't hide  
There is no escape from the night  
Sun shining oh so bright
