You Love Me Back

Jann Arden

I love you the most
And I will never change my mind
I love you like mad
And I cannot imagine why you
Love me back
You love me backI love you because
You've seen me at my very worst
And even though I look that bad
You tell me I'm your universe
So I'm so glad you love me back
Imagine thatI love you, you love me back,
We're in love, imagine that
I love you, you love me back,
We're in love, imagine thatNothing's perfect, nothing's ever easy
But you never chose to leave me here
I know that I probably drive you right around the bend
But somehow you still believe in me
When you could just disappearI love you, you love me back,
We're in love, imagine that
I love you, you love me back,
We're in love, imagine thatI love you the most and I will never change my mind
I love you like mad and I cannot imagine why you
Love me back, you love me back
I love you, you, you love me backI love you, you love me back,
We're in love, imagine that(I love you)
I love you, you love me back,
We're in love, imagine that(I love you)I love you, you love me back,
We're in love, imagine that(I love you)
I love you, you love me back,
We're in love, imagine that(I love you)I love you, you love me back,
We're in love, imagine that(I love you)
I love you, you love me back,
We're in love, imagine that(I love you)
