

Cuts Marked in the March of Men

Coheed and Cambria

Listen to the world out on the outside pressing in
Are you ready on my mark fingers given names
And with the last word they ascend
On the comfort of their well being in arms
Into something they can't stop but wish that they could kill
You're the answer to their prayer in your last hour stand
You'll notice the one that you had loved
In dreams is here among the others
Chase it's you I want but if I can't have her
Then why should I spend any more time
In a world that's going to end pretty soon
I need you now more than I ever did
I'll hand myself over for you
This comlink's lost its frequency
And I feel that we're coming home short
Here take me instead I'd rather not see her off alone
Scattered amongst the killing streets
The children slate defense, is God's work to have us fail?
Rivered blood streams out the dead as bodies foul the air
I'll make peace when this done, in arms we storm
Slowly the streets begin to fill with new flesh bound to bone
Armed and ready it begins again, in your last hour stand
You'll notice the one that you had loved
In dreams is here among the others
Chase it's you I want but if I can't have her
Then why should I spend any more time
In a world that's going to end pretty soon
I need you now more than I ever did
I'll hand myself over for you
This comlink's lost its frequency
And I feel that we're coming home short
Here take me instead I'd rather not see her off alone
Tonight we form, tonight, ha, ha, ha
Deliver a favor to my love, deliver a favor to my love
Deliver a favor to my love, deliver a favor to my love
In your last hour stand
You'll notice the one that you had loved
In dreams is here among the others
Chase it's you I want but if I can't have her
Then why should I spend any more time
In a world that's going to end pretty soon
I need you now more than I ever did
I'll hand myself over for you
This comlink's lost its frequency
And I feel that we're coming home short
Here take me instead I'd rather not see her off alone
