Swimming Around You

Brian Dolzani

Oh what lead to this all from that one kiss
Look at how I'm bent overboard I went

Now my life has changed
My patterns rearranged

I'm swimming around you
Happy to be swimming in your ocean
you and me

Through the water cold after you I go
On into the dark if that is where you are

I won't be afraid with you I will stay

I'm swimming around you
Happy to be swimming in your ocean
you and me

I'm soaking wet and my heart's a wreck
but your light will shine and I'll follow

I'm swimming around you
Happy to be swimming in your ocean
you and me

I put myself aside for you
I wanna do the things that you want to
all the colors I can be
when I'm swimming you and me
