

# Rescue

## The Summer Set

When the drinks come marchin' in, guess we do the resolution  
The evidence of last night's, scattered on the floor  
We caffenate our blood, talk religion and our families,  
Graduate then separate, throw our caps into the air  
Now it's three o'clock in the morning, and you're cryin' on  
the curb.

If you never scrap your knees, you're never gonna learn  
Never said that life was easy, but we're gonna make it work.[Chorus]

When you'll need me I'll be there,  
A friend in the eye of the storm.  
And when all the lights burn out  
I'll carry you out of the dark,

I'm come to your rescue  
You remember when we used to swing from street lights.

Chasing New York minutes from pacific time

And if I didn't believe in you, why the hell am I still here?

Like an album gloss we're lost in, even after all these years.[Chorus]  
When your ups and downs, spin you round  
and round again

If you're dizzy now, when your world is caving in  
I'll come to your rescue

Oh you, oh you, oh you, oh you

Come to your rescue.[Chorus]  
And one day the sky so clear, nothing to worry no fear

Oh you, oh you, oh you, oh you

Oh you, oh you, oh you, oh you
