Talk About It

Erik Hassle

This girl has to love you first
So don't celebrate
She's over you in just a minute, hmThis girl has to leave you 'cause
The space in my bed burns
Somebody relieve meThis ride is something else
It takes me off the game
This ride is something else
BabyI don't want to talk about it, no
Then nothing would be beautiful between us
Baby, I don't want to think about it, no
Just let me know what you would call this thing between us
BabyYou're sitting in front of me
Talking 'bout how you feel
I say "let's go back to your place"A moment it all feels real
Like if you would never leave
Then I see it in your eyesYou carry all these lies
Livin' life in disguise
You fuck me up insideThis ride is something else
It takes me off the game
This ride is something else
BabyI don't want to talk about it, no
Then nothing would be beautiful between us
Baby, I don't want to think about it, no
Just let me know what you would call this thing between us
Between usI don't want to talk about it, no
Then nothing would be beautiful between us
Baby, I don't want to think about it, no
Just let me know what you would call this thing between us(oh) I know you love it (oh, oh), you love it
Then nothing would be beautiful between us
(baby) baby (oh), I know you love it (oh, oh, baby),
Just let me know what you would call this thing between us
Baby
