

# Not the I But the You In Me

## Anointed

You have walked into my life  
You have painted all my dreams  
'Til the color of your love  
Is the color of me You can look into my heart  
And you can read my mind  
You can read about yourself  
In between the lines Every good thing I have done  
Everything that I've become  
Everything that's turned out right  
Is because You're in my life And if I ever teach a child the way  
Ever learn myself to change  
Ever become who I want to be  
It's not the I but the You in me You have looked into my eyes  
You have seen what I am  
But still, You're by my side  
Telling me I can And there are times I've caused you pain  
And times I've made mistakes  
Somehow you used them all  
To make the I you made Every good thing I have done  
Everything that I've become  
Everything that's turned out right  
Is because You're in my life And if I ever teach a child the way  
Ever learn myself to change  
Ever become who I want to be  
It's not the I but the You in me And if I wondered for a hundred thousand years  
I would never understand  
How you're in me and I'm in you and you could say  
You are the reason why I am Every good thing I have done  
Everything that I've become  
Everything that's turned out right  
Is because You're in my life And if I ever teach a child the way  
Ever learn myself to change  
Ever become who I want to be  
It's not the I but the You in me Every good thing I have done  
Everything that I've become  
Everything that's turned out right  
Is because You're in my life And if I ever teach a child the way  
Ever learn myself to change  
Ever become who I want to be

It's not the I but the You in me[Incomprehensible] 4.06  
Everything that I've become  
Everything that's turned out right  
Is because You're in my lifeAnd if I ever teach a child the way  
Ever learn myself to change  
Ever become who I want to be  
It's not the I but the You in me
