

Forever Yours

Side Walk Slam

Your eyes light up my life now
With you I am complete
You've always been there
By my side Our love grows everyday
Trials will rise we stay the same
You're the one I love
I'll be yours forevermore You see things
That no one sees at all
You've always been there
When I fall Our love grows everyday
Trials will rise we stay the same
You're the one I love
I'll be yours forevermore We'll make it this I swear
Don't fake it please say you care
We'll make it this I swear
Don't fake it please say you care I'll be yours forever more
I'll be yours forever
