Spaceman

Written by danny kirwan.Spaceman fly high
See the sun go, wanna die
Secret lovers
Won't you take this heart of mine
Through an open door
See what love is for
Believing
In a little while
In a another smile
I'm leavingSilent motion
See the world go 'round and 'round
Deep blue ocean
There I know where I'll be found
Every day and night
I don't wanna fight
I need you
Take me by the hand
Yes I understand
You're leavingBaby you're the spirit flying through the sky
Baby you're my heart's desire
I know what is real
I just beg and steal
I'm just sinking in the mireEvery day and night
I don't wanna fight
I need you
Take me by the hand
Yes I understand
You're leavingBaby you're the spirit flying through the sky
Baby you're my heart's desire
I know what is real
I just beg and steal
I'm just sinking in the mireSpaceman fly high
See the sun go, wanna die
Secret lovers
Won't you take this heart of mine
Through an open door
See what love is for
Believing
In a little while

In a another smile
I'm leavingSpaceman...spaceman...spaceman...spaceman
