

No Ordinary Love

Alaine

oh, woah oh,
no ordinary love,
every every moment that I'm awake,
every, every hour of everyday,
I love how you take my breath away.

In your arms I'm safe, secure,
every care around me melts away,
when you hold me every care around me melts away,
when you hold me i forget every word that i wanted to say,
I am freely lost in your love,
there is no one else for me,
i surrender completely,

[chorus]

oh, oh, my hearts racing, I'm shaking,
caught up in the love we're making,
this is no, this is no ordinary love, oh baby,
your skin on my skin, oh
it's so good i feel like crying,
this is no, this is no ordinary love

i don't ever wanna say goodbye,
i could never breathe, never survive,
baby your my reason why,
i believe there's meaning in my life,
i faith in love, faith in us, and faith that this is right,
i surrender forever tonight

{chorus}

extraordinary, more then special,
every moment we're together,
more then love, more then enough,
I'll never leave it, never,
every second of every minute,
love and i have fallen in it,
with you, and only you,
ordinary just will not do,

[chorus]

in your arms I'm safe secure,
every care around me melts away
when you hold me i forget every word that i wanted to say,
i am freely lost in your love,
there's no one else for me,
i surrender completely

[chorus]
