Number One

Kris Kristofferson

You were conceived at the right time everything about you blows my mind
Thought I'd been in love before now I just got my foot in that door now
There's never been anyone like you for me
All the rest have been two's and three's
Darling from now on and on and on you're gonna be number one
Number one in my book and now in my life
Number one and yoy're still by my side
Number one is ways I've never known before number one someone I love so

[sax]Since you've come along life's been a joy
That's a turn around for this ol' boy
Over me and next to none you're gonna be number one
Over me and next to none you're gonna be number one
