

Iceman

Lloyd Banks

Yeah, I'm back They know me 'round here, they call me Iceman
I ain't your friend boy, I'll f*** your wife man
Look at my left, now look at my right hand
Every time I move it looks like a strike of lightning My name is Banks, but you can call me Igloo
There's white rocks on my neck and my wrist's blue
So don't trip 'cause you know I got my pistol
You'll be surprised of the doors that it gets through Yeah, Louie introduced me to jewelry, now I'm lovin' it
Tell Jacob the shinin's so good, them h*** love the s***
Diamond after diamond and I climbed up out the bottom
So holla if it's a problem, I got 'em just like you got 'em I'm stylin', they grillin' 'cause my whip can buy a
skyscraper
Roll down the windows stick my hand out, "Hi hater"
I'm on my way to L.A., I'll see you guys later
You'll be here when I get back, ain't got no time to drink that Now all I do is sit back, hop on the plane and sip
'gnac
Hop in the Range and whip that, came in the game with this crap
You say my name you get smacked, right on your brain with the gat
Know who you playin' with Black, then holla back They know me 'round here, they call me Iceman
I ain't your friend boy, I'll f*** your wife man
Look at my left, now look at my right hand
Every time I move it looks like a strike of lightning My name is Banks, but you can call me Igloo
There's white rocks on my neck and my wrist's blue
So don't trip 'cause you know I got my pistol
You'll be surprised of the doors that it gets through My name is Buck but you can call me Icey
I keep spillin' Cristal on my white T
Don't give a f***, b***** you ain't gotta like me
I pop my trunk and have you runnin' in your Nike's Look what I just bought, this white mink I got it in New
York
And this bright link I put it on and walk right out the store
Where's my car keys? What am I gon' drive?
My Phantom got the steering wheel on the wrong side Pocket full of cash, Ferrari with the drive-out tags
Them h*** followin' us, let me stop and get some gas
Liberace, the cops watch me
I'm ice skatin' like a n***** playin' hockey, holla back They know me 'round here, they call me Iceman
I ain't your friend boy, I'll f*** your wife man
Look at my left, now look at my right hand
Every time I move it looks like a strike of lightning My name is Banks, but you can call me Igloo
There's white rocks on my neck and my wrist's blue
So don't trip 'cause you know I got my pistol

You'll be surprised of the doors that it gets through
 Canary yellow princess cut, rocks when I smile
 Fat boy kept it gritty since I was a chubby child
 Look at me now, hat cocked up, wristwatch rocked up
 When I put my hand up to my mouth and hit that sticky stuff
 The light, hit the ice, on my eight-ways piece
 In the streets, I'm a G, on the mic, I'm a beast
 Keep a b**** on her knees, n**** please, I'm a pimp
 Purge first, ask last, I'm a shark, you a shrimp
 Check a deuce, Chevrolet, rims taller than my son
 Gun, on the seat with a extra clip 'cause I ain't fin' to run
 In my brand new, shell toe, three stripe, all white
 In other words, come my way with that s*** you gon' lose your life
 They know me 'round here, they call me
 Iceman
 I ain't your friend boy, I'll f*** your wife man
 Look at my left, now look at my right hand
 Every time I move it looks like a strike of lightning
 My name is Banks, but you can call me Igloo
 There's white rocks on my neck and my wrist's blue
 So don't trip 'cause you know I got my pistol
 You'll be surprised of the doors that it gets through
 What the f*** are they yellin'?
 Dope man, anybody killa in the hood, f*** the homeboy sellin'
 I've got a problem with him, if I can't touch it
 Then he can't slang it and these streets get dangerous
 Corny n****z pull up in cargo vans
 Palms sweaty, icky's out with they masks all mad
 I gave 'em the order and that's all bad
 Born into flossin' flashin' got his mark-a**, smashed
 The Iceman is in the buildin' chillin', big game huntin'
 And this lame's, stuntin', got an addiction
 That's deeper than a prescription, he's sleepin'
 I'm on a mission to beat him in my position, it's f***ed
 They know me 'round here, they call me Iceman
 I ain't your friend boy, I'll f*** your wife man
 Look at my left, now look at my right hand
 Every time I move it looks like a strike of lightning
 My name is Banks, but you can call me Igloo
 There's white rocks on my neck and my wrist's blue
 So don't trip 'cause you know I got my pistol
 You'll be surprised of the doors that it gets through
 They know me 'round here, they call me Iceman
 Watch out
 They know me 'round here, they call me Iceman
 Watch out, I'll f*** yo' wife man
 They know me 'round here, they call me Iceman
 Watch out
 They know me 'round here, I'll f*** yo' wife man
 Watch out, yeah
