

The Wanton Song

Led Zeppelin

Sighing woman in the night, you came
Took my seed from my shaking frame
Same old fire, another flame
And the wheel rolls on
Silent movements through the flames, you come
From the deep behind the sun
Kissed my brightness, my loving gun
Left me barely holding on
Blazing eyes see my trembling hand
Well we know the time has come
Lose my senses, lose command
Feel your heaving rivers run
Is it every time I fall
That I think this is the one
In the darkness can you hear me call
Another day has just begun
Silent woman how your face does change
Soft and low waves become
Feel my fire needs a brand new flame
I, the wheel rolls on
Rolls on...
