

# Disappear

Beyoncé<sup>1%</sup>

If I begged and if I cried  
Would it change the sky tonight?  
Would it give me some light?  
Should I wait for you to call?  
Is there any hope at all?  
Are you drifting by?

When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able  
To share with you

I try to reach for you  
I can almost feel you  
You're nearly here and then  
You disappear  
(Disappear, disappear, disappear)  
You disappear  
(Disappear, disappear, disappear)

And when I lie all by myself  
I see your face, I hear your voice  
My heart stays faithful  
And time has come and time has passed  
If it's good, it's got to last  
It feels so right

When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able  
To share with you

I try to reach for you  
I can almost feel you  
You're nearly here and then  
You disappear

(Disappear, disappear, disappear)  
You disappear  
(Disappear, disappear, disappear)  
You disappear  
(Disappear, disappear, disappear)

I missed all the signs  
One at a time  
You were ready  
What did I know  
Starting our lives?  
Now, my love, I'm ready to show

When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able  
To share with you

I try to reach for you  
I can almost feel you  
You're nearly here and then  
You disappear  
You disappear  
You disappear  
You disappear  
You disappear
