

Little Red Lights

Todd Rundgren

You got to ease into line, boy
But once I hit the open road
I'll be sailing off and on my own You and me, in my GT
With those little red lights in front of me
When I go to Heaven
You know that's where I want to be Would you please fill it up, boy?
I'd like to stop and catch myself a bite
But I sure hate to leave the road tonight You and me, in my GT
With those little red lights in front of me
When I go to Heaven
You know that's where I want to be And when I'm racing the clock
You know that I would die or kill somebody
Just to move this hunk of steel one more block You and me, in my GT
With those little red lights in front of me
When I go to Heaven
You know that's where I want to be I think I see a little red light
In my rear view mirror
