Give Me One Chance

[Cole Porter Band](#)

Look to the future
And not to the past
All of these lessons
Have led me too fast
Cause when you get caught
Under fear and regret
You have to remember
That you can repent
I always get close to reaching your door
But somehow I freeze and fall to the floor
I ask myself questions
I try to ignore what's getting at me
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will swallow me in vein
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will bring me down in vein
Do you believe in the drama you've made
All of your actions have made it this way
Does anything make you question your faith
I'm trapped in myself with no way to escape
I always get close to reaching your door
But somehow I freeze and fall to the floor
I ask myself questions
I try to ignore what's getting at me
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will swallow me in vein
Give me one chance before it's gone

Before you walk away
Take another chance before the world
Will bring me down in vein
Will bring me down in vein
Before we fall apart

Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will bring me down in vein
Let me go, let me go,
Take everything away
Theres nothing that can break us
So everything will be ok
I always get close to reaching your door
But somehow I freeze and fall to the floor
I ask myself questions
I try to ignore what's getting at me
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will swallow me in vein
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will bring me down in vein
Will bring me down in vein
Before we fall apart
Give me one chance before it's gone
Before you walk away
Take another chance before the world
Will bring me down in vein
Will bring me down in vein
