

It's Alright

Fabulous

All you need to know is the vibe round' here
We built and instill it, Sean Paul alongside Fabulous
You done know we buss', telling them again, ay
Girl, run away, tha guy that wants to 'Vibe kill' it
Yo, she say a only tha 'topper' youth and 'Dapper' youth
She want to win it, Fabulous
Let's get it ta' poppin' ma, it's a little before 1
And I'm yellin' out aye, aye, aye, aye, aye, yo
I can tell by tha ring in tha middle of ya tongue
You're tha kinda girl that has a little bit more fun
I'm literally yours, hun
I never seen a ass so big with a waist as little as yours, hun
And by tha expressions on them, hotties grills
I know they wanna holla at somebody real
And I'm usually lookin' for somebody skilled
Enough to make a nigga say aye, aye, aye, yo, niggas get mad
'Cuz I may slay they hoe
But I don't wanna let the A.K. spray so
Stop face fightin' me, like ya face frighten' me
I do this every year, so I ain't never scared
I do this everywhere and you ain't never there
They sayin' this everywhere, how could you never hear
If you wanna roll with tha thugs tonight
Lights, camera, action, can you feel tha hype?
Hit, cruise control blazed Kryptonite
Well, it's alright, baby, it's alright
If you wanna live up and free your life
Come through, let we kick it 'til a morning light
Girl, you wanna roll with tha thugs tonight
Well, it's alright, baby, it's alright
So get with it, we want to hit it, we nah quit it
And I like tha way you body set and how your clothes fit it
I want you give me some of it because minute by minute
Temperature, it all a rise because you thighs and all you hips style
You shockin' it, you a rock it, you a kill it
And a one thing the Dutty Paul want to predict
Say by tha end of tha night, you will be chillen' with tha click
Flossin' it, money we tossin' it 'cuz we a tha Boss in it
We naw ease up, we ain't stallin', grab tha girls all in

That's my true callin'

Y'all freeze up, we be flowin' it
Your girl knowin' it and that's why she's showin' it
We naw ease up, we ain't stallin', grab tha girls all in

That's my true callin'

Y'all freeze up, we be flowin' it
Your girl knowin' it and that's why she's showin' it
If you wanna roll with tha thugs tonight
Lights, camera, action, can you feel tha hype?

Hit, cruise control blazed Kryptonite

Well, it's alright, baby, it's alright

If you wanna live up and free your life
Come through, let we kick it 'til a morning light
Girl, you wanna roll with tha thugs tonight

Well, it's alright, baby, it's alright

Over here tha liquor is light blue, the chronic is light green
They wearin' tha right shoe, they put on tha tight jeans
They bringin' me right thru', I walk with a slight lean
My style excites you, I know what that might mean

Aye, Imma freaky Scorpio

Yo, tryna' leave with your skio

Aye but it's mandatory tho'

Yo' after me let shorty go

But that's another story tho'

But please don't try to bring us to tha Maury show

How cool is he?

You don't know a fool who be crazy enough to fool with me

You'd rather swim in a pool of pee

Then see tha one you love in tha vehicle with me

Aye, yo but tha vibe is right, tha girls is up to par

We gon', drink it tonight and earl it up tomorr', it goes

If you wanna roll with tha thugs tonight

Lights, camera, action, can you feel tha hype?

Hit, cruise control blazed Kryptonite

Well, it's alright, baby, it's alright

If you wanna live up and free your life
Come through, let we kick it 'til a morning light
Girl, you wanna roll with tha thugs tonight

Well, it's alright, baby, it's alright
