

# End of Time (B-3)

## Monster Magnet

Someone tell those slobs that they got it wrong  
They screwed us good and gave the whole circus away  
Venus warm my bed 'cause I'm coming home, now  
I'm crashing the ship and just walking away  
Somebody told me once that you were deeper than darkness  
A shining face on a body that could send me to war  
Naked flesh in the heart of a nuclear sunrise, baby  
Drain that lizard's tank until there ain't anymore  
Throw my burned out head in a lake of fire  
I'll satisfy my soul on the other side  
Pump me till I'm gone and I can't get back  
I'll smoke you fuckers out at the end of time  
I saw this girl, once... her hair was on fire  
Her eyes like stars  
She's never left my mind  
A planet bird singing her phoenix song  
Electric children's voices at the end of time  
Somebody told me once that you were deeper than darkness  
A shining face on a body that could send me to war  
Naked flesh in the heart of a nuclear sunrise, baby  
Drain that lizard's tank until there ain't anymore  
Throw my burned out head in a lake of fire  
I'll satisfy my soul on the other side  
Pump me till I'm gone and I can't get back  
I'll smoke you fuckers out at the end of time  
Wash my tired brain in an acid bath  
Fuck me till I'm dead and I can't get back  
I'll satisfy my soul on the other side  
and smoke my baby out at the end of time
