

# Toiler On The Sea

## The Strangers

I had a woman ship  
I took her overseas  
She left her hold unlocked  
I had to find a dock  
I was a toiler on the sea  
I was a toiler on the sea

We didn't use cruel words  
To navigate cruel seas  
The wind was biting hard  
At times I had to scream  
I was a toiler on the sea  
I was a toiler on the sea

And when we reached the land  
We went aground on the rocks  
Became a wreck in the sand  
Became a home for a flock

We ventured overland  
Fought with the aliens  
The young ones used their hands  
Pointed the way to a flock

A flock of seagulls  
A flock of seagulls  
A flock of seagulls

Then we retraced our steps  
Rebuilt the woman ship  
I took her back up north  
I lost her in the fog  
I was a toiler on the sea  
I was a toiler on the sea
