Native Tree of Life

Terry James Clark

And the oldest tree
rooted deep in the earth
remembers earth in her glory
and the howling winds
and roaring ocean
oh how the earth is changing
oh tree of wonder tree of life
show us the knowledge from your eyes
tree of wonder tree of life
take us into your spirit side
take us into your spirit side
and the oldest tree
rooted deep in the earth
watching and waiting and weeping
standing tall to strong tailwind
oh how the earth is changing
oh tree of wonder tree of life
show us the knowledge from your eyes
tree of wonder tree of life
take us into your spirit side
take us into your spirit side
