

I'm on Fire

Cub Sport

I wanted you to see me here, chest ablaze burning my fear, okay
And you watch me I can't keep still, but I could meet your maker still
And you're convinced that I'm not strong, but I am here to show you that's not right
'Cause I'm not lit but I'm alight
I'm on fire, don't put me out, don't put me out
I'm on fire, don't put me out, don't put me out
I wanted you to see me here, watch a light show make it disappear, alright
I'm like the candles on your cake, shining bright lighting up your face
You're still convinced that I'm not strong, but I am here to show you that's not right
'Cause I'm not lit but I'm alight
I'm on fire, don't put me out, don't put me out
I'm on fire, don't put me out, don't put me out
I wanna be there for every change, so don't forget my ruined face
I wanna be there for every change, so when it burns you hear my name
I wanna be there for every change, so don't forget my ruined face
I wanna be there for every change, so when it burns you hear my name
I'm on fire, don't put me out, don't put me out
I'm on fire, don't put me out, don't put me out
