

Aliens

Warlord

Through Pioneer 10 and Voyager 1

We've launched our knowledge to other suns

Aspiring and reaching for the highest of beings

We've lost our search for the world's basic needs
The Aliens - inside our machines! The Aliens - inside our dreams!

The Aliens . . . The Aliens, The Aliens are here! Through fiction and lies we gaze at the skies

For flying saucers and men with three eyes

Creating those monsters we seek to destroy

Like children at play smashing their toys! The Aliens - controlling our spheres! The Aliens - so far yet so near!
The Aliens . . . The Aliens, The Aliens are here!
