

# Tarnished Angel

[George Jones](#)

Your halo is the neon  
Your heart a jukebox song  
Your heaven is a honky tonk  
You love to live so wrong I know you're not much angel  
As a saint you've gained no fame  
My angel's kind of tarnished  
But I love just the same [Chorus]  
Tarnished angel  
From a backstreet bar  
Tarnished angel  
I want you just as you are Our world's are strange and different  
But love they say is true  
I'll try to live in your world  
If you won't live in mine [Chorus] Our world's are strangely different  
But love they say is blind  
I'll try to live in your world  
If you won't live in mine
