My Voice

Cledus T. Judd

Some kids have it, some kids don't
I was eleven when I was signed
I was on the CMA's and
Y'all thought that Vince Gill sang highThen puberty played a trick on me
A few mustache hairs
A change occurred
My voice maturedMy first single did so good
I bought bikes for all my friends at school
A little something for mom and dad
Like an in-ground swimming poolLook at this pimple
Oh, man it hurts
The sweetest voice you'd ever heard
Till my voice maturedMy voice, my high pitched voice
It just went away
It happens to all boys
It keeps changing every single dayI bet nobody thought
I'd go overnight from soprano to bass
Now all of my hits are too high
For me to sing all the wayI need some help, it sounds absurd
I used to sing just like a girl
But my voice matured
My voice matured, my voice maturedOom pah pah, mau mau mau
That's not funny Cledus
