

# Deadlights

## Pedigree

from the east  
a thundering roar is heard  
countless victims  
struck by fear  
as the time draws near,  
anticipation builds  
the aggressor attacks  
and leaves no man alive  
the beast rises from out of the pit  
to tell the news of man's destruction  
to wage war against every nation  
the time has come to kill  
protector and destroyer of worlds  
in your rage lies the death of the earth  
the flames reach towards the sky  
and the earth dies
