

Say Aha

Santigold

[Chorus]

Louder than they

Louder than they

Louder than they

Allow, allow

Louder than they

Louder than they

Louder than they

Allow, allow

Say Aha, Aha

Say Aha, aha

At night it's eating up your head,

Backed against the wall

Got you in a tight place

Though you're not alone at all

Been fighting, trying to place a name on what it's called

Make you feel like a losing streak cause you know

But you're not involved

[Chorus]

It's alright, cause everything they say

Doesn't make no sense

It's that time

I'm picking up my ass

Up from off the fence

Gonna blow a hole in this charade

It's self defense

I'm a army got a whole brigade in my two sense

[Chorus]

Oh

Send in your torpedoes for all they know

Make a show, shake them up before you blow

Cause they don't want no cure

No, you'd better find a way

Their aims not pure

[Chorus]
