(Darlin') You Know I Love You

Tina Turner

I know you love me baby
But you never tell me so
I know you love me baby
But you never tell me so
If you don't tell me that you love me
I'm gonna pack my rags and goI live across the street from the jukebox baby
All night long they play the blues
I live across the street from the jukebox baby
All night long they play the blues
Everytime they spin that record
Honey it makes me think of youOne little song in particular baby
Always sticks in my mind
One little song in particular baby
Always sticks in my mind
Everytime they play it baby
I start right into cryin'
Oh baby please don't leave meNow I'm gonna crawl across my bed, baby
Cry myself to sleep
Yeah I'm gonna crawl across my bed baby
Cry myself to sleep
And in my dreams I hear you saying
Baby please come back to me
