

How To Believe

Bridgit Mendler

Hold my hand and fly,
Never say goodbye.
Cross the open sky,
Leave the world behind.
I will be alright.
If you stay by my side.
Spring and summer
Love and laughter
We'll live happy ever after.
We'll fly higher than we thought we'd be
Because you showed me
How to believe.
Tiny shining star,
I know who you are.
You're never very far.
We'll never be apart.

Sparkle in my eye,
Light the sky tonight.
Spring and summer
Love and laughter
We'll live happy ever after.
We'll fly higher than we thought we'd be
Because you showed me
How to believe... believe
Fall and winter
Love and laughter
We'll live happy ever after.
We'll fly higher than we thought we'd be
Because you showed me
How to believe, yeah
Hold my hand and fly,
Never say goodbye
