Off-White

Pam Tillis

I've got a scrap book full of pictures
[Incomprehensible] frozen in the air
Needin' lots of lace
And baby's breath in my hairDon't wanna say that I was just rehearsing
For the new love we have found
Oh, but now we know what not to do
The second time aroundAnd I'll be wearing off-white but that's alright
This time the hand in hole is gonna last for life
Took a long way 'round to wind up here
After all of the confusion, baby, it's so clear
When you tell me I look beautiful tonight in off-whiteI was just [Incomprehensible]
I didn't know who I was
It said it wasn't her fault at all
You couldn't give till she just gave upYeah, we had our reservations
'Cause we've seen one forever end
And it took a revelation
For us to wanna try againAnd I'll be wearing off-white but that's alright
This time the hand in hole is gonna last for life
Took a long way 'round to wind up here
After all of the confusion, baby, it's so clear
And you tell me I look beautiful tonight in off-whiteThis has come with a little baggage
Somethin' borrowed, somethin' blue
Drawn together by common sorrow
Till we stumble on somethin' new
The you and me, in me and you
And I'll be wearing off-whiteAfter all of the confusion, baby, it's so clear
When you tell me I look beautiful tonight
Looks like it's time again we fall and get it right
In off-white, off-white
