Rescue

Rescue
I've been released from darkness
My life has been redeemed
Now I am found in you
You've pulled me
From the fire
For all eternity
My chains have been removed
My chains have been removedMy God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it outYour blood has bought my freedom
No greater love than this
My king would die for me
Not even death could hold you
The battle has been won
My sins are washed away
My sins are washed awayMy God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it outMy God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it outShout it out, shout it out
Shout it out, shout it outMy God, my hope, my rescue
My sins are washed away
My God, my hope, my rescue
My sins are washed awayShout it out, shout it outMy God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it outMy God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it outShout it out, shout it out
Shout it out, shout it out
Shout it out
