### Rescue

I've been released from darkness  
My life has been redeemed  
Now I am found in you  
You've pulled me  
From the fire  
For all eternity  
My chains have been removed  
My chains have been removed My God, my hope, my rescue  
The cross has set me free  
No power can stand against you  
I'll shout it out, shout it out Your blood has bought my freedom  
No greater love than this  
My king would die for me  
Not even death could hold you  
The battle has been won  
My sins are washed away  
My sins are washed away My God, my hope, my rescue  
The cross has set me free  
No power can stand against you  
I'll shout it out, shout it out My God, my hope, my rescue  
The cross has set me free  
No power can stand against you  
I'll shout it out, shout it out Shout it out, shout it out  
Shout it out, shout it out My God, my hope, my rescue  
My sins are washed away  
My God, my hope, my rescue  
My sins are washed away Shout it out, shout it out My God, my hope, my rescue  
The cross has set me free  
No power can stand against you  
I'll shout it out, shout it out My God, my hope, my rescue  
The cross has set me free  
No power can stand against you  
I'll shout it out, shout it out Shout it out, shout it out  
Shout it out, shout it out  
Shout it out
