

Excited

The Doobie Brothers

Week by week, day by day
You got me changin' in so many ways
Thinkin' of you I feel the cold
Somebody get a doctor I'm startin' to fall I get excited don't you understand
I get excited 'cause it's part of the plan Day by day and hour by hour
I get a shiver from your lovin' power
The fire in your eyes just lets me know
Ain't no way I ever let go I get excited don't you understand
I get excited 'cause it's part of the plan Hot love, what you bring to me
I get excited by the novelty
Hot love, like a fever you feed
Black lace and promise is all I need
You bring it on I love it, baby, I love it all
Anytime, anytime you call
Day or night as the world move on
It's time for action, the talkin' is done I get excited don't you understand
I get excited 'cause it's part of the plan Hot love, what you bring to me
I get excited by the novelty
Hot love, like a fever you feed
Black lace and promise is all I need
You bring it on I get excited, tell me
I get excited, well, well come and tell me about it
I get excited, yes, I do, tell me, baby
I get excited, well, well, tell me about it, love you now I get excited
