Woman Hungry

Norma Jean

Lately he's been dining out when his hungry lips need fed
You no longer serve him love and a heart could starve to death
You've pushed him from the table it's no longer spread with care
And when a man gets woman hungry he will find the meal somewhere
When a man gets woman hungry and he's got no food at home
There's an awn in deep inside his heart that will cause a man to groan
He'll play around forbidden fruit reach out and take his share
When a man gets woman hungry he will find a meal somewhere
[steel]
Malnutrition of the heartis one disease that he can't fight
It demands that he find love and keeps him provin' through the night
Searching for the table you've been failing to prepare
Cause when a man gets wpoman hungry he will find a meal somewhere
When a man gets woman hungry...
