

Hit It Again

Luther Vandross

Well by now you know I'm insatiable
"Cause when you step to leave I want a full repeat, yeah
It's a miracle, you were right inside my head
If the feeling's nice, why not do it twice?
It is not against the law, no baby
I slave all through the week
And I need my release
I work hard so when I stop
I gotta get a little satisfaction for me
Hit it again
Don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
Deep emotion ain't got nothing to do with it
And being in love ain't really got a thing to do with it
I hope you understand
But I can't worry if you don't, oh no
If I can't double up
It's like I didn't get enough
Call me greedy if you want, just do it
But it's something that will never change
I don't get no complaints
They know it when they ring my bell
That this could be a thing that could take a little while, well, well
Hit it again
Don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
I declare the point to be
Once is not enough for me
Two time lovin' makes me smile

One time love just ain't my style
Repeat the love and I have found
More the second time around
It builds me up I love to love
And if I can't hit it again
It ain't natural
Hit it again
Don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
