

# Couple Days Off

## Huey Lewis & The News

Yeah alright I like my job and I don't mind the work  
But eleven out of twelve is bound to hurt  
The pay's pretty good and the benefits are fine  
But I got a little girl and I wanna make her mine Don't mind telling you I get a little mad  
To get a bit ahead takes all the time I have  
Don't misunderstand me, I'm not getting soft  
All I want is a couple days off Yeah can't wait for the weekend  
Ah baby just can't wait no I don't need another high song to sing  
I don't need a shiny new diamond ring  
I don't need to meet nobody else  
I just need a little time for myself 'Cause I'm only human, I'm no machine  
I need a little loving only you know what I mean  
Don't misunderstand me, I'm not getting soft  
All I want is a couple days off Yeah, just a couple days  
Let me catch my breath Thank God for the weekend Ah back to the old grind I don't need another long coffee  
break  
I've had as much coffee as a man can take  
I need to change my disposition change my point of view  
I need time to figure out what I wanna do Believe me when I tell you it gets a little rough  
We work a little harder but it never is enough  
I'm not afraid to say I'm a total loss  
All I want is a couple days off Just a couple days  
Oh yes sir Time to wait for the weekend
