

# Roll the Dice

[Ian Thompson](#)

well don't ask me what the root of my plan is  
I can't tell you but it just feels right  
don't ask me what the plan of my route is  
say goodbye co's I'm booking my flight to better things take my advice  
let's spread our wings let's roll the dice you may find me on a beach in miami  
sailing out to the deep blue sea  
watching sunsets from the beaches of bali  
out my cage now I'm finally free how do you feel don't think twice  
lets spin the wheel let's roll the dice  
let's roll the dice let's roll the dice far away I have to go now  
I can not stay another day now  
come with me don't you see  
there's a place there's a way there's a life for you and meso come on and join me on my adventures  
just have a little faith in me  
if you're tired of living life in these trenches  
well my friend you're in good company we'll share the cost we'll pay the price  
and if all is lost we'll roll the dice  
how do you feel don't you think twice  
lets spin the wheel and let's roll the dice  
ahh to better things take my advice  
let's spread our wings let's roll the dice  
let's roll the dice
