

Good Morning Beautiful

Deftones

One of these days you'll break me of many things
Some cold white day,
But you're crazy if you think I would leave you This way

You
Should wake up (Wake up)
Before the wrath comes
Me and you could take off (Take off)
Before the wrath comes, soon

And one of these days I pray it will be sometime soon
On a day like today,
You'd be crazy not to want me to teach you
The way

You
Should wake up (Wake up)
Before the wrath comes
Me and you could take off (Take off)
Before the wrath comes, please

Well I know what you're like
I've read it on the walls
You're too tired, you choose heaven over the
Earth and me but come on
Please

You
Should wake up (Wake up)
Before the wrath comes
Me and you could take off (Take off)
Before the wrath comes
Well maybe you should take off
Yeah you should take off (Take off)
