

Thank You

Simply Red

I thank you for the things you have shown me
Thank you for the love of my life
So far anyway now it's really, really over
O, God, I really thank you, baby Most of all I thank you for your love
Like good people should do anyway
I thank you, I really thank you
All of my life, I really thank you My souvenirs, I hold them and remember
All the days for the rest of my life
Truth is I miss you in all the ways you will imagine
See me, feel me, I wanna say Most of all I thank you for your love
Like good people should do anyway
I thank you, I really thank you
All of my life, I thank you I thank you, I really thank you
All of my life, I thank you
Yes, I thank you, I really thank you, baby
All of my life, I really thank you, girl For all of my life, I really thank you, girl
I thank you
