Nighttown

Stavesacre

Tonight
it could be the end
it could be the end of our lives
our last good-byes
won't you stay?
and see something great
i don't want to waste tonight
this place is ours when the lights go downlet's make this last - make it our own
let's close this place down
you won't be lonely here
you won't be lonely here
you won't be lonely... tonighttonight
forget your mistakes
leave all the ashes behind
just for tonight
tear away
or just stay outside
choose either way - decide
this place is ours when the lights go downno one knows if tomorrow's gonna come
let's stay out all night... tonight
tonight... let's close this place down tonight
make it our own
our own
make it our own
our own
