You've Got Time

Regina Spektor

The animals, the animals
Trapped, trapped, trapped 'till the cage is full
The cage is full
Stay awake
In the dark, count mistakes
The light was off but now it's on
Searching the ground for a bitter song
The sun is out, the day is new
And everyone is waiting, waiting on you
And you've got time
And you've got timeThink of all the roads
Think of all their crossings
Taking steps is easy
Standing still is hard
Remember all their faces
Remember all their voices
Everything is different
The second time aroundAnimals, the animals
Trapped, trapped, trapped 'till the cage is full
The cage is full
Stay awake
In the dark, count mistakes
The light was off but now it's on
Searching the ground for a bitter song
The sun is out, the day is new
And everyone is waiting, waiting on you
And you've got time
And you've got time
And you've got time
