# Heart

## Gary Numan

Does she make you laugh?
Does she make you cry?
Does she call your name?
Let me tell you why
Have you ever tried to look into her eyes?
Have you ever tried to look into her heart?
There is no one home
Time will heal you, time heals everything
Just an empty room
Time will help you, time helps you forget
There's no tears for you
Time will heal you, time heals everyone
There's no heart at all
Time will help you, time helps you forget me
She will change your world
She will change your mind
She will change your rules
She will make you blind
You will never try to look into her eyes
You will never try to look into her heart
See there's no one home
Time will heal you, time heals everything
See an empty room
Time will help you, time helps you forget
See no tears for you
Time will heal you, time heals everyone
See no heart at all
Time will help you, time helps you forget me
I'll leave you, you'll try to forget
I'll haunt you, like someone haunts me
I'll leave you, you'll try to forgive
I'll haunt you, like someone haunts me
Does she laugh at you
Like she laughed at me?
Does she break your heart
Like she broke mine?
