

# Heart

Gary Numan

Does she make you laugh?  
Does she make you cry?  
Does she call your name?  
Let me tell you why  
Have you ever tried to look into her eyes?  
Have you ever tried to look into her heart?  
There is no one home  
Time will heal you, time heals everything  
Just an empty room  
Time will help you, time helps you forget  
There's no tears for you  
Time will heal you, time heals everyone  
There's no heart at all  
Time will help you, time helps you forget me  
She will change your world  
She will change your mind  
She will change your rules  
She will make you blind  
You will never try to look into her eyes  
You will never try to look into her heart  
See there's no one home  
Time will heal you, time heals everything  
See an empty room  
Time will help you, time helps you forget  
See no tears for you  
Time will heal you, time heals everyone  
See no heart at all  
Time will help you, time helps you forget me  
I'll leave you, you'll try to forget  
I'll haunt you, like someone haunts me  
I'll leave you, you'll try to forgive  
I'll haunt you, like someone haunts me  
Does she laugh at you  
Like she laughed at me?  
Does she break your heart  
Like she broke mine?
